Athletic

MORE THAN 36 YEARS WITH PLENTY OF ENERGY TO REINVENT, DEVELOP AND BREAK THE BOUNDARIES

The human body and its incredible potential to overcome was always the biggest motivation for Athletic to develop itself throughout its history!

In order to be present in all environments related to fitness and wellness, Athletic is proudly supplying to 40 countries around the world and has surpassed the mark of 36 years in the market with a lot of energy to reach the highest levels.

We are Athletic, the main Latin American producer of fitness equipment. The strength gained over 36 years of experience associated with commitments to the customer and innovation makes Athletic highlighted on residential and professional use equipment.

Our history is based on our industrial experience, commercial and quality services to the customer, either in Brazil or in other many countries. Founded on July 10th, 1986 in the city of Joinville, Santa Catarina (Brazil), the company has been improving itself year by year to become the best reference in its line of business and to lead its segment in many countries.

With the vision to be present in all environments related to fitness and wellness, in the same year of its foundation, Athletic began to construct the commercial area, starting with a call center and then door-to-door sales. Since then, Athletic has established a closer relationship with its final customers. Our company has also added B2B, corporate, e-commerce and market place department. Finally, the company started its activities in the international market.

36
years

With hard work and constancy,
Athletic has been consolidated since
1986. Being a leader in the South
American market, and expanding
even more due to high quality and
modernity of its lines and equipment.

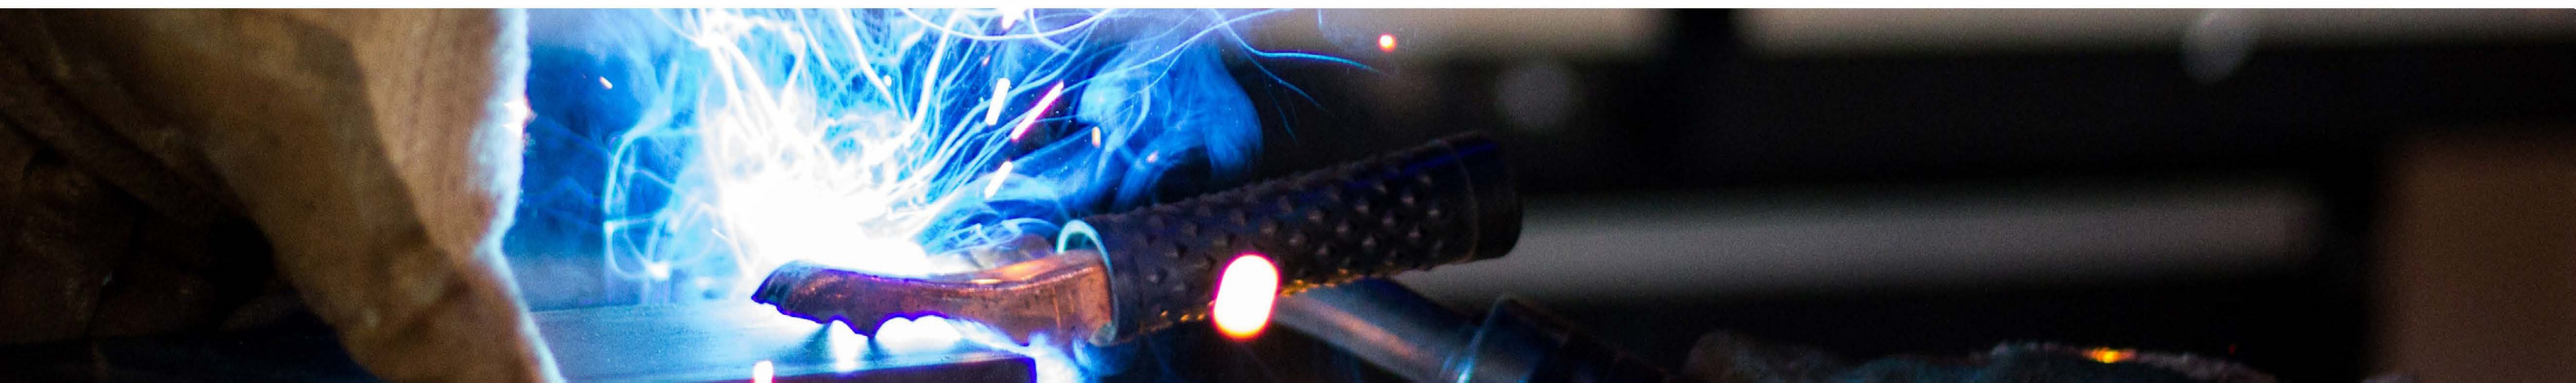

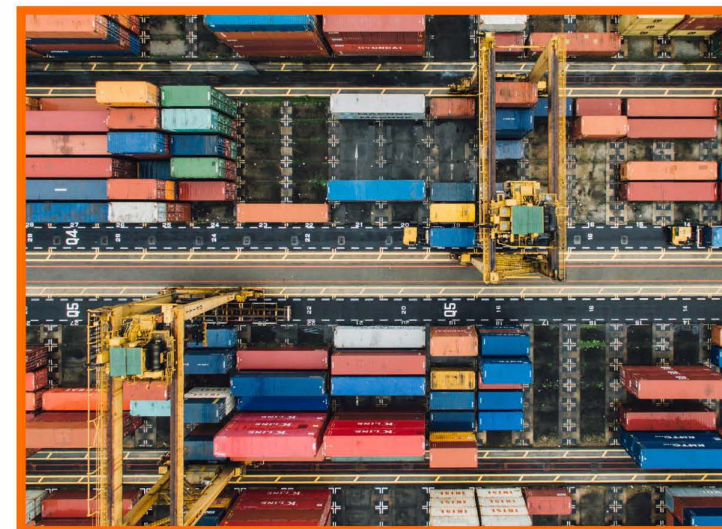

With its head office in Joinville, Brazil, Athletic has been operating its own factories and establishing partnerships for the production of fitness equipments, motors, controllers weights and accessories over the years.

Our bussines began in the production and sale of home use products, then expanded to equipments for hotels and complexes, finally to complete a full line of commercial use products.

The company was built besides being committed to offer a complete portfolio of products, but also of services, always providing a whole and complete after sales assistance. Athletic has a full service network and an inventory of spare parts to meet whichever demand. With a solid structure, heavy investment in technology and logistics, Athletic innovated on solutions to its customers, either beginner or professional once. Our equipment quickly got to the heart of millions of consumers around the world. It became synonymous of usability, durability and wellness. Regarding sustainability, the company acts as follow:

- Social activities, creating a healthy work environment, social inclusion, ideas program, labor gymnastics, free gym for employees, etc.
- Economic, with production and trade of its products with a fair competitive relationship against its competitors;
- Environmental, always adapted to the current law and one of the few companies in the fitness segment to promote employment and income in the heart of the Rain Forest, with its factory in Manaus, Brazil.
- Today, more than 36 years later, our trading platform linked to technological development capacity, production and strong brands, bring in new products to homes, hotels, clubs, gyms, and even more, all over the world. Products are distributed in our own stores on more than 10,000 sales points.
- A success history, that is being built every day with our suppliers, with the society, with our team of professionals and our customers that translate our values around the world.

The quality standard that Athletic conquered and consolidated in the market is because of technological developments in the production of fitness equipment and its components. The use of technology allows the company to offer the products with more features, more quality, competitive price and attractive design for the customers.

A lot of effort is required to be constantly updated to follow and incorporate the evolution of technology to the industrial processes. Athletic has been constantly attending trade shows around the world and investing in partnership with machinery and material suppliers.

Besides seeking technology where it is created, Athletic also invests in product development. We have a R&D team with great experience and knowledge in DC motors, monitors and controllers for treadmills and other products and equipment such as homegyms, bikes and elliptical bikes.

Athletic is investing in staff, new processes, laboratories and new equipment. It is part of the company strategic plan to maintain its investment in technology, in order to consolidate the brand as a leader in the segment. Disposing of methods, equipment and quality services. Athletic has a wide network of partnerships with domestic suppliers.

WHY ATHLETIC

Our concept of work applied to all of our current distributors goes far beyond a seasonal sale. We offer our distributors what we call the Athletic Benefit package. This is primarily intended to assist the entire process of sell-in and sell-out and consequently to assist on the final customer's purchase decision:

Predefined lay out, private label or third party specialized marketing team dedicated to assist all process of face-lifting using a private label, or using our ready-made models of our already consolidated brand is only one of the benefits of choosing Athletic. Check also the following:

SUPPORT

The Athletic way, is to have the highest quality not only in the sale, but to give full after sale support, 24/7. We also develop and invest on local and global marketing strategy and actions. Our expert staff are one of the biggest differential.

LOGISTIC

36 years to convert the best practices into the best logistics solution for customers. High mixing of SKU'S in the same container, low MOQ, ready to ship products and spare parts for all models. Experienced team for you convenience.

QUALITY

Not only the best prices but also the best quality. Secured by preshipment inspection, high tech production system. We are able to offer a complete portfolio with what is new on the global fitness market.

EXPERIENCE

Besides its people, 36 years of knowledge in the global fitness market, presence in five continents and more than 40 countries, Athletic takes seriously its long term reputation to become one of the biggest brands on this field.

Athletic brings a fully interactive catalog. It can be accessed both on your cell phone and on your computer, bringing a wide range of information about the products we offer.

Find the product and click on the image.

CATALOGUE

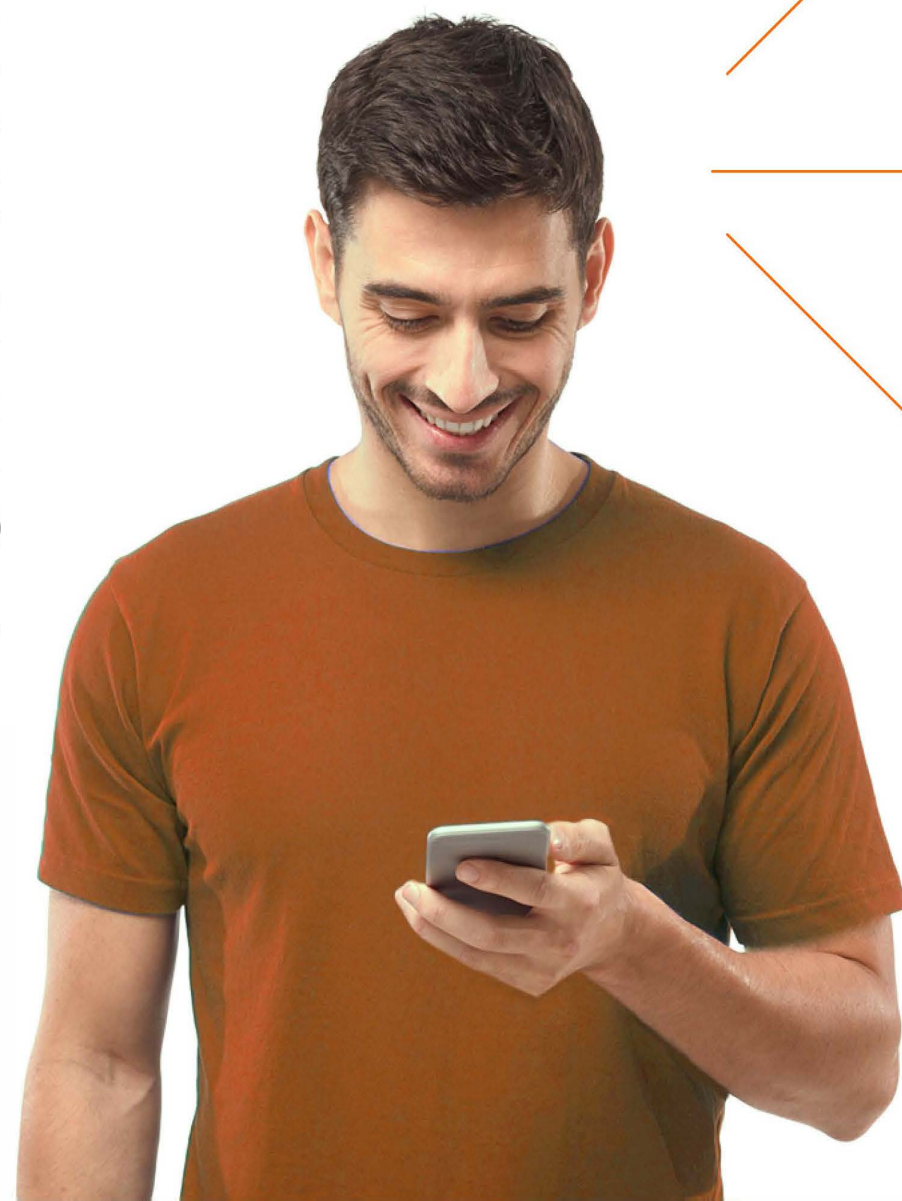

You will have access to the product chart, having more information and different photos for the products.

QR CODE

And also thinking about this connectivity, use your cell phone to read the QR code on our products. Being able to access manuals and product information.
